INTRODUCTION

Welcome to the new edition of the 21st Century Standard Catalog of World Coins. This most recent annual version, of our ever changing and evolving series of comprehensive reference catalogs, is designed to meet the needs of those whose interest in coins exceeds the casual jingle in your pants pocket. Perhaps you've traveled overseas and still have some coins that came home with you, maybe you read in the news about the newest Euro coins, or it could be that you are a long term collector who wants to wade out into the most current of numismatic trends. In all cases, this book is for you.

Arranged in a basic alphabetic fashion by country and with groupings for political structure, coinage type and denomination to help better organize the data, this volume is as easy to use as the phone book. You will find photographs of many 21st Century coins, plenty of information on metal content, descriptions of types and varieties, date listings and of course values presented in multiple grades of preservation. In short, just about all the information you could want on the most modern coins of our world.

Marvel at the ingenuity of today's most inventive world mints, which are striking coins in a variety of shapes and sizes, colors and textures. Enjoy the practicality of coins designed for serious circulation in durable metals. Celebrate the advent of coins made of acrylic materials and those, which house precious stones or display gold overlays. All are here in our 21st Century edition.

The accuracy of the data offered in this volume is assured through the assistance of a vast array of contributing coin dealers, collectors and researchers who have lent their knowledge to the compiling of this new reference, providing our staff with information on new coinage types, new dates, accurate mintage figures and up to date pricing. To them we offer a heartfelt "Thank you!" for their generosity and dedication to the advancement of our shared field of coin collecting.

Finally to you, the reader, we extend our wishes that you may enjoy using this catalog as much as we enjoyed its' production. Look it over, put it to good use and please let us know if you have any comments or questions.

Best Wishes,

The Editorial Staff of the
Standard Catalog of World Coins

To help you successfully navigate through the PDF document, several types of searches are available.

USING BOOKMARKS

Click on the Bookmarks icon to open the Bookmarks window. Use these links to go to specific points of interest. To scroll through pages in each section, use the arrows at the top of the screen (see next page for instructions to find page navigators).

USING THE FIND BOX

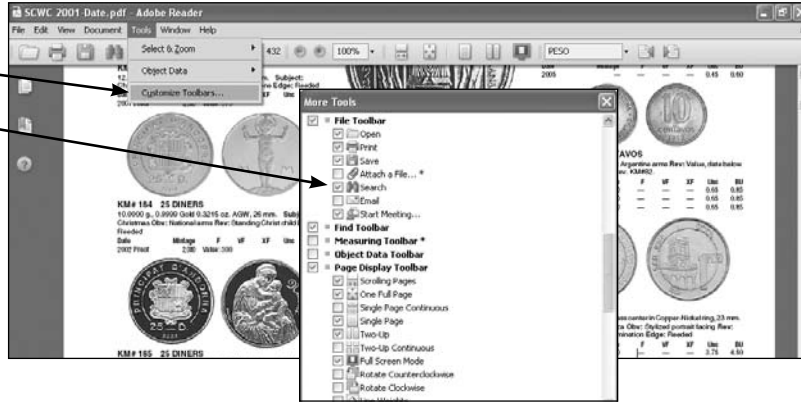

Locate the find box in the tool bar and enter the word(s) you are searching for.

To navigate through the results of your search, use the Find Next icon.

USING THE SEARCH OPTION

Locate the Search button by choosing Customize Toolbars in the Tools pull-down menu. Check Search (binocular icon) to have the Search option available in the toolbar.

Click on the Search icon to open the Search dialog box.

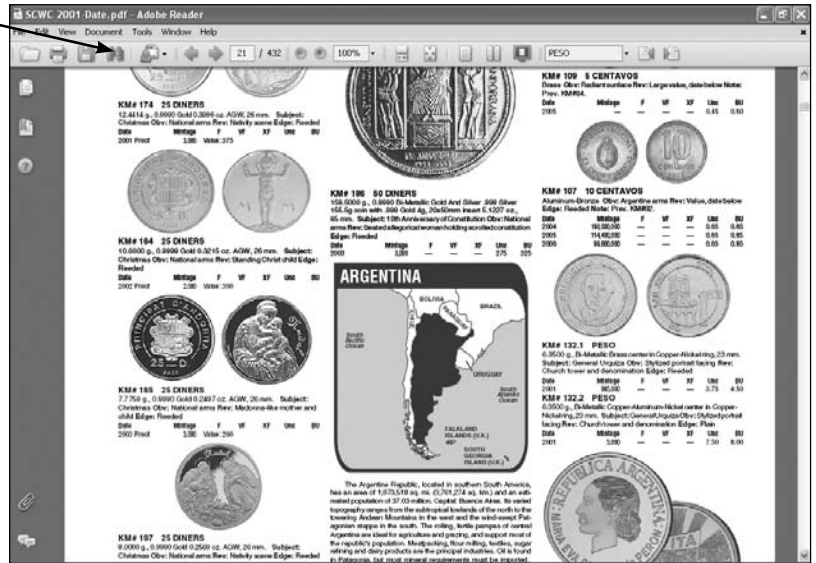

In the Search dialog box, enter the word(s) you are searching for and click on the Search button.

The list of results will appear in the dialog box. Click on the listings to view each page that contains your searched word(s).

To begin a new word search, click on the New Search button.

USING PAGE NAVIGATORS

Activate the Page Navigator Toolbar by choosing Customize Toolbars in the Tools pull-down menu. Check each tool as shown at right. You are now able to page through the PDF document by using the arrows at the top of the screen or by entering a page number you wish to view.

You may also enlarge the images of the coins up to 400% for easy viewing
